Hi Mark
See below. We hope to send out the HCP notification tomorrow. -Michelle

Michelle,
I don't have Dr. Ryan's email. Can you forward to him too when you get this email for any final comments before we send out the memo to providers?
Thanks,
Parham

Attached, please find the following two documents:

1. Overview of the surveillance system being put in place to capture oil spill related medical visits. This attachment explains the goal of the surveillance system, how notification of this process will be distributed to

partners, and how we expect to share reports within and outside of our agency. This is for internal use only.

2. Attachment two is the actual memo or protocol going out to health-care providers & facilities on how to report the patient encounters. DHH IT is working on establishing a specific email address for SEET where these complaints can be forwarded to. This is the last missing link to the document. We hope to have this by tomorrow.

I just wanted to give all of you a chance to review these two documents in case you have any feedback or questions before we send them out tomorrow.

Thanks,
